

KjelMaster K-375

Free choice of methods at perfect usability

We provide solutions for both potentiometric and colorimetric titrations. The KjelMaster K-375 meets the highest demands in usability, automation, user administration and sophisticated data management.

Comprehensively safe

Comply with any official method, data management and ensure safety

Easy to use

Simplify routine operations and thorough data exchange

Maximized productivity

Highest sample throughput by using automation and streamline procedures

K-375: Your most important benefits

Comprehensively safe

- Compliant and flexible plug-and-measure titration concept (colorimetric/potentiometric)
- Safe operation, user protection and guided routine operation
- Different access levels of authorization according to GLP requirements
- Reproducible results with the smart distillation mode "IntelliDist"
- Data security supported by intelligent software

Easy to use

- Intuitive operation via the large graphical color touch screen (8.4")
- Simple LIMS integration and traceable data recording
- No errors in routine operations by the sophisticated KjelLink PC software
- Optimal and stable working conditions by self-adjusting cooling water control

Maximized productivity

- Shortest time-to-result due to well synchronized process steps
- Upgrade onsite for highest sample loads by connecting the KjelSampler
- Fully automated workflow for high sample loads
- Automatic data exchange with complementary peripherals

Complete your portfolio

KjelSampler
K-376 / K-377
Auto sampling 24 / 48
positions

KjelDigester
K-446 / K-449
Block digestion

SpeedDigester
K-439
IR digestion

Recirculating Chiller
F-108 / F-114
The efficient way of
cooling
