# Kuhner shaker

# ES-X (Lab-Shaker)

Shaker with separate control unit suitable for use in incubators with humidity

250

The ES-X is a specially designed shaker with a separate controller. It is ideal for use in existing incubators or temperature controlled rooms as the shaking unit with its stainless steel casing can be placed in areas of high temperature (up to 80°C) and humidity (up to 95% rH).

## **Performance characteristics**

- + For use in incubators or temperature controlled rooms
- + Ideal for cell culture applications
- + Special version available for robotic systems
- + Minimal heat transfer and low energy consumption
- + Stainless steel motor casing

#### Installation in existing incubators

Extremely low energy consumption combined with minimal heat transfer makes the ES-X the perfect choice for cell culture applications in existing  $CO_2$  incubators. The shaker will not affect the chamber temperature and will not be damaged by the humid conditions. The control unit remains outside the incubator connected to the shaker via an access port. This access port needs to be at least 35mm diameter to accept the cable.

The ES-X can also be integrated with robotic systems. Moreover, 48 different stopping points can be programmed.

As with all Kuhner shakers, the ES-X is reliable, capable of high speeds, maintenance-free and backed by a five year warranty. There are three standard shaking diameters 12.5, 25 and 50mm, with custom shaking diameters available upon request.

# **Technical data**

Machine	SMX1300
Weight	60kg
Operating menu in	de, fr, it, en, es
Interface, standard	CAN-Bus
Interface, optional	USB, Ethernet, digital, analogue
	-20°C up to 80°C
Control unit	0°C up to 60°C
Consumption, maximum	65W (130W with high torque drive SMX1031)
Consumption, typical	25W

### • Shaking unit

1 x Tray, size	E (420 x 420mm)

# Accessories

## To suit your application

#### **Universal trays**

The universal tray can be fitted with clamps for Erlenmeyer flasks, test tube holders, microtiter plates, sticky mats, or custom made holders to suit your requirements. Rearranging these clamps and holders is quick and simple.

• Order number	Description
SM3002	Universal tray EU (420 x 420 mm)
SMX3002	Universal tray EXU (500 x 420 mm)
SM3003	Universal tray FU (800 x 420 mm)

#### **Clamps for Erlenmeyer flasks**

<ul> <li>Order number</li> </ul>	Flask size in ml	Max. number of clam	nps per Universal tray	
for 1 clamp		EU	EXU	FU

#### Trays with fixed clamps

The clamps are riveted onto these trays and cannot be removed. They offer maximum security and will often hold a larger number of flasks than universal trays. These trays (E, EX and F) are available in a variety of flask clamp sizes from 25 to 6000ml.

Tray E (420 x 420 mm) with fixed clamps

#### **Trays for microtiter plates**

Kuhner has designed trays specifically for microtiter plates. Handles at the front of the tray open and close the special clamping mechanism allowing plates to be loaded and unloaded. Trays of different heights (22, 47 and 77mm) allow the stacking of up to four microtiter plates. The trays are suitable for all types of plates (deep well, low well, 24, 48 and 96 well).

#### Tray E (420 x 420 mm) for microtiter plates

<ul> <li>Order number</li> </ul>	Description	Microtiter plates
SM3502.22	E-MT.22	12 - 24
SM3502.47	E-MT.47	12 - 48
SM3502.77	E-MT.77	12 - 72

Tray F (800 x 420 mm) for microtiter plates

Order number	Description	Microtiter plates
SM3503.22	F-MT.22	24 - 48
SM3503.47	F-MT.47	24 - 96
SM3503.77	F-MT.77	24 - 144

#### Trays with rubber mat

The whole tray is covered with a rubber mat and is particularly suitable for shaking containers at low speed (e.g. blood bags).

• Order number	Description
SM3602	Rubber mat EG (420 x 420 mm)
SMX3602	Rubber mat EXG (500 x 420 mm)
SM3603	Rubber mat FG (800 x 420 mm)

#### Trays with sticky mats **2**

A tray fitted with sticky mats is especially useful for flasks shaken at low speeds (up to 200rpm). The flask is placed directly on the sticky mat without the need for any other support. Flasks of all sizes can be used. Sticky mats are available individually or in sets and can also be supplied already fitted to a tray. Each mat is 20 x 20cm and can be cut to size. The E-size tray accepts 4 mats while the F-size tray requires 7 mats.

• Order number	Description
SM3702	E-tray with sticky mats (420 x 420 mm)
SMX3702	EX-tray with sticky mats (500 x 420 mm)
SM3703	F-tray with sticky mats (800 x 420 mm)

#### Trays for centrifuge tubes 3

The use of centrifuge tubes (e.g. 50ml Falcon tubes and TPP 50ml tubes) in cell culture screening is well established. Kuhner offers special trays in three different sizes for this purpose. The E and EX trays have a capacity of 72 (3x24) 50ml centrifuge tubes while the larger F size tray can take 120 (5x24) 50ml tubes. Holders for 600ml TPP tubes are also available.

Tray E (420 x 420 mm)		
<ul> <li>Order number</li> </ul>	Description	Centrifuge tubes
SM3804	50ml Tube E-tray (EPFL	) 72 (3x24)
Tray EX (500 x 420 mm)		
<ul> <li>Order number</li> </ul>	Description	Centrifuge tubes
SMX3804	50ml Tube EX-tray (EPF	L) 72 (3x24)
Tray F (800 x 420 mm)		
Tray F (800 x 420 mm) • Order number	Description	Centrifuge tubes
	Description 50ml Tube F-tray (EPFL	5

#### **ISIS-Software**

Kuhner developed the user-friendly ISIS-Software for supervision, monitoring, and recording of data. The software is easy to operate.

#### Interfaces

Kuhner shakers are equipped with a CAN-bus. CAN-USB, CAN-Ethernet, EMI-60 and NET-60 are all well established interfaces.

#### Trays with support bars 4

These trays offer an alternative to both clamps and sticky mats and are ideal for tall containers. The tray is covered with a rubber mat and has an upright at each corner. E and EX size trays are fitted with four cross supports while the F tray is equipped with six. These support bars securely clamp containers.

Order number	Description
SM4120.4	EA-tray with rubber mat and
	4 cross supports
SMX4120.4	EXA-tray with rubber mat and

SM4130.6	FA-tray with rubber mat and
	6 cross supports

#### **Trays for separating vessels**

Kuhner has also designed a special tray for shaking separating vessels. This very flexible tray can take vessels of various sizes. It is also possible to add a second layer and double the capacity. Movable retaining rods allow vessels to be installed easily.

#### Tray E (420 x 420 mm)

• Order number	Description	Vessels
SM420250	ES-250	5
SM420252	ES-250/2	10 (2 layers)
SM420500	ES-500	4
SM420502	ES-500/2	8 (2 layers)
SM421000	ES-1000	3
SM421002	ES-1000/2	6 (2 layers)

#### Tray F (800 x 420 mm)

<ul> <li>Order number</li> </ul>	Description	Vessels
SM430250	FS-250	10
SM4302502	FS-250/2	20 (2 layers)
SM430500	FS-500	8
SM4305002	FS-500/2	16 (2 layers)
SM431000	FS-1000	6
SM4310002	FS-1000/2	12 (2 layers)

## **Options**

### Tailored options for your shaker

#### **Dual table**

The dual table is an easy and economical way of doubling the shaking capacity. The dual shaking table consists of two levels. Each level will accept an E, EX or F size tray. However, with the dual table the shaking speed is limited to a maximum of 200 rpm.

#### **IQ-OQ Documentation**

IQ-OQ (Installation Qualification and Operation Qualification) is an equipment qualification required for GMP procedures. This service is available from Kuhner and can also be carried out at the customer's premises.
